

Portable Oxygen Concentrator - 10 LPM	
SN	Technical Specification
1	No of oxygen outlets: Single or dual
2	Oxygen concentration 93% \pm 3% at 10LPM flow.
3	Oxygen output: 10 LPM
4	Power source: Electrical or battery operated
5	Type of operation: Continuous flow type
6	Should have adjustable air delivery mechanism
7	Noise level should be less than 60 db
8	Should have oxygen purity indicator/alarm for low oxygen concentration.
9	Should have audio and visual alarm for Low oxygen concentration, low pressure and power failure.
10	Should be supplied with following accessories: a. Tubing: 2 sets b. Bacterial filters: 2 Nos c. Humidifier bottle: 2 Nos d. Suitable mask: 2 Nos
11	Should be US FDA or European CE or BIS approved

Portable Oxygen Concentrator - 20 LPM	
SN	Technical Specification
1	No of oxygen outlets: Single or dual
2	Oxygen concentration 93% \pm 3% at 20LPM flow.
3	Oxygen output: 0-20 LPM
4	Power source: Electrical operated
5	Type of operation: Continuous flow type
6	Should have adjustable air delivery mechanism
7	Noise level should be less than 60 db
8	Should have oxygen purity indicator/alarm for low oxygen concentration.
9	Should have audio and visual alarm for Low oxygen concentration, low pressure and power failure.
10	Should be supplied with following accessories: a. Tubing: 2 sets b. Bacterial filters: 2 Nos c. Humidifier bottle: 2 Nos d. Suitable mask: 2 Nos
11	Should be US FDA or European CE or BIS approved
